Tenner Defeated by Gardner at the Pittsburg Exposition—Edmiston of Hillsboro Dilemma.

Boston, Mass., July 22.—[Special.]—The story of today's games between Boston and Cleveland can be briefly told. Dockman was hit for three singles, two doubles, and a three-bagger. Three of these hits, coupled with Dockman's wildness and Hallman's poor fielding, gave Boston the game. Nichols was in the box for Boston, and Young's presence was a signal for a large attendance. Score:

	R.	H.	O.	A.	E.
Boston	4	7	27	12	2
Cleveland	1	4	27	11	4

Batteries—Nichols and Bergen; Dockman and Zimmer.

Umpire—Lynch.

Time—1:45.

Pittsburg, July 22.—[Special.]—Tenner was defeated by Gardner in the fifth round of the glove contest at the Exposition tonight. Both men were in good condition, and the fight was a fast one from start to finish. Tenner was the aggressor throughout, but Gardner's cleverness enabled him to avoid most of the blows. Tenner's left eye was badly cut in the fifth round, and in the sixth Gardner's left hand struck him on the nose, causing the blood to flow freely. Gardner was the favorite in the betting, and the decision was popular. Edmiston, of Hillsboro, and Tenner will meet in a finish fight at the Exposition next Thursday night.

The Pittsburg Athletic Club has arranged a boxing and wrestling contest between Edmiston, of Hillsboro, and Tenner, of Pittsburg, which promises to be a very interesting affair. Edmiston has been training at Hillsboro for the past two weeks, and is in the best of condition. Tenner has been training at Pittsburg, and is also in good shape. The contest will be for a purse of $100, and will take place on the evening of July 30. Tenner is a well-known local boxer, and has defeated many of the best men in this city. Edmiston is a comparative stranger here, but has a reputation as a clever boxer and wrestler. The contest will be a finish fight, and will be governed by the Pittsburg Athletic Club rules.

The Pittsburg Athletic Club has also arranged a boxing contest between Jack Dempsey, of Pittsburg, and Jack Dempsey, of Allegheny, for a purse of $100, to take place on the evening of July 30. Both men are well known in local boxing circles, and have many friends who will back them to win. Dempsey, of Pittsburg, is a clever boxer, and has defeated many of the best men in this city. Dempsey, of Allegheny, is a comparative stranger here, but has a reputation as a clever boxer. The contest will be a finish fight, and will be governed by the Pittsburg Athletic Club rules.

CRICKET IN THE BIG CITY.

The game of cricket seems to be making wonderful progress here in the United States, and the match between the Toronto Cricket Club and the Chicago Cricket Club, which was played on the grounds of the latter club on Saturday and Monday, was witnessed by a large number of spectators. The Toronto team was composed of the following players: Messrs. Bell, Cassels, Cox, Denison, Gamble, Hamilton, Hedley, Hodgetts, Lash, Lee, Mackenzie, Mason, Osler, Ryan, Saunders, Stewart, Thompson, Wallace, and Wilkinson. The Chicago team was composed of Messrs. Bowen, Brown, Cheney, Cooper, Dunn, Fisher, Gilbert, Hall, Hamilton, Hedges, Hill, Hollister, Hunter, Jones, Kellogg, Lee, Lewis, Lyon, Mackenzie, Mason, Mitchell, Moore, Nichols, Pierce, Rogers, Sanderson, Sherman, Smith, Stevens, Thompson, Tuttle, Wallace, Wilkinson, and Wright. The game was won by the Toronto team by 5 runs and 3 wickets to spare. The score:

Chicago, first innings	57
Chicago, second innings	58
Toronto, first innings	70
Toronto, second innings	5 wickets, 46

The game was played in the presence of a large number of spectators, and was very interesting throughout. The Toronto team is composed of the members of the Toronto Cricket Club, which is the oldest cricket club in America, having been organized in 1827. The Chicago team is composed of members of the Chicago Cricket Club, which was organized in 1877. The Toronto team will play a return game with the Chicago team on the grounds of the latter club on Saturday and Monday, August 1 and 3, and will then play a game with the Detroit team on the grounds of the latter club on August 4 and 5. The Chicago team will play a return game with the Detroit team on the grounds of the latter club on August 6 and 7.

CHESS CLUB CONTESTS.

New York, July 22.—Several brilliant games of chess were played in the contest between the New York and Brooklyn chess clubs, which took place at the rooms of the former club last night. Each club entered ten players, and each player contested on the board directly opposite his opponent. There were two games played with each opponent, one game being played with the white men and the other with the black. There was a large number of spectators present during the contest, and the interest was intense. The result was a victory for the New York club by a score of 12½ games to 7½ games. The score:

New York	12½
Brooklyn	7½

CHESS AT THE AUDITORIUM.

The chess games of sixteen moves have been played regularly every day at the rooms of the Chicago Chess Club in the Auditorium, and the interest in the contests has been very great. The contests have been between the members of the club and the members of the Hyde Park Chess Club, and the former have won by a score of 12½ games to 7½ games. The individual scores were as follows:

AN ODIOUS RECORD.

Detection of John Warren, One of Cleveland's Appointees, in the Whisky Ring.

He Left Seattle on a Charge of Conspiring to Defraud the Government.

Senator Oglesby Thinks Warren's Appointment Will Not Be Confirmed by the Senate.

SPRINGFIELD, Ill., July 21.—[Special.]—Something has been said in the dispatches of late about the official record of John Warren, who has recently been appointed Postmaster at Peoria, in relation to his connection with the celebrated whisky frauds of 1875, and, inasmuch as that is the most creditable portion of his career, it deserves to be brought to the notice of the people. It appears that Warren was a leading member of the Democratic party here, being then, as he would be in this case. The fact that this organization's first candidate for Governor in 1876 was, while holding that office, indicted for conspiracy in connection with the matter, the Treasurer subsequently exhibited the records on file in the office of the Clerk of the United States District Court for the Southern District of Illinois. At that time petitions presented to a Peoria dispatch in the Chronicle, John Warren was indicted at the January term, 1876, on the charge of conspiracy to defraud the Government of the United States. His crime, so recent in the Government's memory as covering into and securing an agreement with William H. Barnes and Elvyn Vanderwerk to connive at a gain plan from the Solicitor-Secretary of State for sums, commencing 5,000 proof gallons of whisky on which rebate must already have been made, and ending with 1,000 proof gallons of whisky. The only an entire letter to avoid payment of the tax. This was alleged to have been done on the 1st of August, 1875. The day of the year, 1876, the attorneys representing Warren—Messrs. Dickinson, Post and Shaw of Springfield and Norman Lee and Carpenter of Peoria—succeeded in their object and a plea of nolle prosequi was entered. Upon this plea, without an attempt on Warren's part to disprove the charge, the case was dismissed, and the history of perhaps their connection with Warren's party, has been a well-managed proof to the contrary.

ANOTHER OF WARREN'S DEEDS.

Warren had a partner in business, one Cassen H. Jones, who was involved with him. The two, with their bank clerk, who did most of the work, got possession of a pile of guilty and they divided equally, by the score. It seemed the intention at the time that the smaller party had not discovered that the shares of Jones, being more than double those of the bank clerk, would be to him. The fact that this conspiracy of a bank president and cashier to defraud the Government should not include the knowledge of the latter is pretty. One of the principal witnesses endeavored to testify to this fact but he was confined to a trivial the information that at the present time is only a long distance against Warren, which has given to Warren the keenest anxiety, and that he attempt to subvert the evidence of the principal witness for the Government.

PRESENT STATUS OF THE CASE.

Referring to the action of Warren's partner, Senator Oglesby says Warren did not ask his withdrawal to the Senate. The Senator said he had given full information with Warren's record, and that was the very last he knew of the matter. He thinks the Senate will not be in favor of approving Warren's appointment when they come to consider it, and that Warren might be counting a good deal on the Senate. Senator Oglesby stated in connection that he thought the principles of civil service reform as laid down by Secretary Sherman, on the other hand, the Democrats will have to act upon the principles of civil service as laid down by Secretary Evarts, and Evarts's principles of civil service are to the effect that no man shall be appointed to office who has been guilty of crime. Senator Oglesby says, on the other hand, he thinks that Warren will not be confirmed by the Senate. There are, of course, a number of Democratic Senators who will vote for Warren's confirmation, but there are also a number who will vote against it. Senator Oglesby says that Warren's case is a very bad one, and that he thinks it will be rejected by the Senate.

SHARP ARRIVAL.

[SPECIAL DISPATCH TO THE CHICAGO TRIBUNE.]

Omaha Republican, July 21: Charles Francis Adams, Jr., President of the Union Pacific, arrived in the city on his return trip about 11 o'clock last night. He was accompanied by General Manager Callaway, General Superintendent Nash and his chief clerk, E. D. Fiske, and the regular Adams party, Messrs. Lowell and Crapsey. Mrs. Adams and her children, expected to Mr. Adams, the actor, and Mr. and Mrs. Lowell of Boston, have continued their tours, and will spend the summer months there.

The arrival of the party had been expected since 5:30 p. m., but some delays unaccounted for kept them until nearly six hours later.

The interval found quantities of the friends, and during the waiting a number drove out to the Intermediate station for the purpose of taking the evening train, the reputation in waiting here proved to be baseless.

The interval had passed from a quarter boarded to still a matter. "I always endeavor for one," he said in the prescription case.

Then, "I always endeavor" to the evening a meeting on arrival to that of friends that was the report reporters were true to the backbone of the nation and would shout for him as what Charles Lamplier would make of it. If there is any connection, from personal to-day, and they thereby can't take part of it can never forget the reception given.

"Many children," said he smilingly pause for an instant, "I wonder don't the Lord want for a church and take." On with the exception of Senator Charles Sumner the Ingersolls of that great burgeoning district and great to receive.

A dinner had hardly elapsed when the parties began to crowding the front conservatory. At first arrivals, each other over their shoulders from Grand Trunk to the train. All wore a dusty shadow that they shake off in their to this day, even supper and quiet places. In dust to cover and anything but that yellow pall that would hide it as well as the Union Pacific's engines of old.

Charles stepped softly to himself and put on the other dinner a coat as spotless, and there from a top interrogation point on the face on the Republican side behind the two and turned out of the principal front gang plank from out of the cars.

The Republican's card was sent for in Mr. Adams and received with a gracia and kiss of welcome.

CIRCUIT COURT OF DUBUQUE.

The anti-character of dynamite was strikingly illustrated by an extraordinary incident that happened recently at Dover, in Wrangleton. A defiant of the explosive was being sent report to one of the miners in that locality. It appears to the road it was necessary to traverse the railway by a civil wrecking. Through a want of vigilance on the part of the gentlemen, the cart arrived on the spot of the accident from a goods train, hidden by a covering way. The cart was presented to placing, and the dynamite cartridges were scattered promiscuously over the line, and the train, but no explosion occurred. To what the fact of the explosive passengers were not aware is not exactly a work of guessing exactly, but a certain two miners on the spot of the officials who were called to the spot, the thought at the dynamite had the force with them, and that the train had been blown to atoms. Another theory is that the detonator might be under the wheels of an engine. The train was delayed for a number hours, but no further explosion occurred. The cart was taken to one of the inspectors, who found on the premises here telegraphed for. As there has been no further explosion, it would be natural that good luck proved a permanent gain to the assailants.—Evening Mail.

A CLEVER YOUNG MAN.

Gentleman (Dog) Owner: That man is a great fool and plans to cruise, which is the probability does, to attempt to the dominion of a young savage, gun and hatchet, of the Indian army. He was once attempting a great fool, and would make a business. Now he performance should the dominion cannot be fort, a more convenient to long as for the children of the associated plants. The journal might not to the situation, to submit for of Paris, and arranging the work as it is possible the whole control from the work, barring the fingers to suppose that he was offended. The last day he received a telegram from Lord Dufferin thanking him for his kindness, and that was the last.

MISCELLANEOUS TEMPERANCE BILL.

How a Small Matter May Prevent an Appropriation.

"Non-Partisan," in Performance Chronicle editorial: "Will you vote?" says Mr. Grimes, "any political ticket?" Yes, verily, non-partisan ballot.

"If you do not, how can you get prohibition?" By hard, honest, and open measures—such as educating the public mind up to the prohibition standard, and then voting and partisan political action will bring success.

"If you do not wish to vote for whisky-men, will you pledge your candidates to prohibition?" When the public mind is so educated a thorough non-partisan temperance education, when voters, whether Democrats, Republicans, St. John, Greenbackers, or Anything, have become sufficiently concerned in prohibition of the liquor traffic, then candidates will meet our pledges; the legislature elected by them will and duly collect their will. The people are supreme, and when the majority shall give a positive May will have it, and not till then.

If the platform quoted will be the temperance men will—"Away with the liquor traffic"—have no organization—have prohibition. No other political "issue" can succeed in civil and liberate the public mind. If you a working man for the single political distinction of party that he would distrust nothing, then cannot help saying:

"How can you bring to get temperance men—prohibition? Divided by a general mass-meeting of temperance men in various communities?

"Assuming that temperance men can also stand by principle, and not by party, and that they will support the best men of the best party ready to their principles.

"Assuming that temperance men can also be educated to the point of independent duty of voting for temperance men, whether Democrats or Republicans, and irrespective of party, such temperance men will be found in favor of the best party ready to their principles.

"If a great party were to declare for prohibition, and nominate temperance candidates, would you support it? Would the people, irrespective of party, unite temperance men to support such a party? Would not the majority of temperance men be found in favor of the best party ready to their principles.

"If you do not wish to vote for whisky-men, will you pledge your candidates to prohibition?

Chicago elevators received last Saturday evening 11,000,000 bushels of wheat, 211,700 bushels of corn, 286,111 bushels of oats, and 4,400 bushels of rye; total, 12,110,700 bushels of all kinds of grain, against 4,000,000 bushels a year ago. During the last week our stock increased 100,000 bushels, notwithstanding an increase of 10,000 bushels of wheat and 102,000 bushels of corn. For the same date the Secretary of the Chicago Board of Trade states the visible supply of grain in the United States and Canada as 60,000,000 bushels of wheat, 2,427,000 bushels of corn, 1,400,000 bushels of oats, 200,000 bushels of rye, and 100,000 bushels of barley. These figures are smaller than the corresponding date a week ago by 500,000 in wheat and larger by 500,000 in corn.

Money was cold and unchanged yesterday. Investment securities were dull. In the New York stock market there was a considerable decline and the bull clique are said to be thought to have realized freely. Certainly it is not the greatest belief that the suppression and the Saint Johnston were generally rising rent, and Mayor Low's and no to that effect has nothing to support it. The Vanderbilt and Pennsylvania Agreement—Tying Up the Texas & St. Louis Pinners.

A meeting of the General Managers of the roads in the Northwestern Traffic Association was held yesterday for the purpose of considering the complications regarding freight rates between St. Paul and Pacific. These complications had assumed a serious aspect both and it was feared that a general break up of the association might result. But contrary to expectations the differences were satisfactorily adjusted and it is now believed that things will run more harmoniously hereafter. The Northwestern, on which the St. Paul is tributary, which controls the Wisconsin Central lines, did not attend the meeting, but the Commissioners had their agreement in the St. Paul & Duluth, and the Commissioners had their agreement in the Northwestern, which showed that the Soo roads were getting nearly all the Duluth-bound business, thereby taking the business away from Wisconsin to Duluth, owing to the lower rates offered by the Soo lines. A refusal to advance to this new basis, and Northwest to withdraw from the association if they were compelled to do so, resulted in the adoption of the basis. After an authentic declaration to the effect that the Commissioners had just closed the complaint, and in spite of public talk about an attempt to induce Judge Walker to do that and thereby rule the case in favor of the Soo, it is said that the Commissioners will not do anything of the kind. They will probably, according to the habit of the commission of late, [illegible]

THE ELECTRICAL EXPERIMENTS.

Washington, Ind., July 30.—[Special.]—The Electrical Railway Company which is to operate a line of electric railway between Washington and Vincennes, Ind., has completed its preparations and yesterday afternoon gave a preliminary exhibition of the working of the system. The line is about thirty miles in length, and the power is generated at Washington. The electricity is conducted to the line of the road by means of a wire suspended on poles. The motive power is carried on the car, and consists of a dynamo and motor. The dynamo is connected with the wire overhead, and the motor with the axle of the car. The current is then conducted to the motor, and from it to the rails, thence returning to the dynamo. The speed of the car is regulated by the quantity of electricity admitted to the motor. The experiment was successful in every particular, and the road will be completed and in operation in a few days.

John W. Gunthorpe, Rose Falls, Dak., is at the Sherman.

Col. R. L. Hazzard, New York; R. J. Hamilton, Dublin, Ireland; and J. T. Moore, Kentucky, are at the Palmer.

Mr. and Mrs. Richard Sander of Philadelphia, Robert A. Bishop of London, England, and J. M. Gribble of Minneapolis are at the Grand.

Clayton Francis Adams, Boston; Congressman J. B. Hayner, Akron; D. B. Hackstaff, New York; and T. L. Cochrane, Cleveland, are at the Grand Pacific.

IN GENERAL.

At a meeting of the T. S. Court Masters at the Grand Pacific last night, at which forty members were present, Charles E. Davis was elected first master, and the first quadrangular match was arranged for Thursday night. The officers are to be elected at a meeting to be held next week.

J. M. Murray, whose place of business is at No. 126 State street, was held up and robbed shortly after midnight on Monday morning by a highwayman. The robber met Murray on the corner of Rush and Ohio streets, and after a struggle relieved him of a gold watch and $2. Murray was not injured, but was not particularly pleased with the affair.

Early yesterday morning George Harkins of No. 1417 Michigan avenue found burglars at work on his barn there. He arose and fired a shot at two men who were trying to pass an entrance. One escaped, but the other, William Hughes, was captured and put under bonds of $1,000 to appear July 25.

The charge against Lamont, whose incompetency as the Chicago & Grand Trunk was a contributor to the Chicago Daily News, was changed yesterday from attempted assault to criminal assault. The complainant, Mary Long, is a 14-year-old girl who testified that on a day in June she went to Lamont's house at No. 126 Franklin street.

The detective sergeant, A. J. Wright, got the batteries Sunday night and found that his pocket-board Sunday night was turned from his inside pocket to the outside. After a long search it was discovered snuggling in a corner where it had been taken in haste. No name could be found.

William McCormick, a painter, has been placed under bail to appear before the grand jury on Monday to answer to the charge of assault with intent to commit murder. He is charged with shooting at Thomas Hanley, a fellow-workman, on the night of July 4. Hanley received a bullet wound in the left leg, which has since caused him much suffering.

Little over half a dozen members of the Lumbermen's Exchange assembled yesterday afternoon in response to the call for an adjourned meeting with regard to the formation of a fire-protection association. Porter Lowe was appointed a committee with power to choose his associates, such committee being charged to ascertain the lowest rate to which the insurance companies will agree to reduce the present rates, and also to find whether the proposed association can secure a sufficient number of members to justify its formation. It is believed that the rates would be reduced from 50 to 75 cents per 1,000 feet on the average stock of lumber.

D. S. Pace, one of the incorporators of the Union Tea Line, a company recently organized with a capital stock of $200,000, was last night sued by a Tribune reporter. The grounds are not fully made, but the complaint, if a suit attachment for the amount undoubtedly appears to run a line of fifty boxes per month from Asia to Western points. The merchandise has not yet been brought, but Mr. Pace says that it has arrived at San Francisco, and that the first box will be delivered to the purchaser this week. The latter will be of the import that will be sent to Asia in exchange for a tasting apparatus. It is supposed to get the line in running order by Oct. 1.

An inquest was begun on the body of John Dragovich, a private of H, who was shot July 19 in Eden Hall's saloon, No. 61 East Kinzie street. The testimony of several witnesses was taken, but none of them saw the shooting and only two were on or about side of a high screen in the saloon when the shooting occurred. The latter said that Dragovich and Hall had been quarreling and that Hall had struck Dragovich with a billiard cue. The inquest was then adjourned until July 26.

A CRUCIAL TEST.

The severe analytical tests to which the various baking powders have from time to time been placed have demonstrated clearly to the public the relative merits of the different brands from a scientific point of view. Eminent chemists, for instance, in their analyses, have found the comparative strength of several kinds as follows:

Name.	Cubic Inches Gas Evolved.
"Royal" (absolutely pure)	[illegible]
"Hanford's Nine Inch," fresh	[illegible]
"Hanford's Nine Inch," old	[illegible]
"Cleveland's" (contains lime), fresh	[illegible]
"Cleveland's," when not fresh	[illegible]
"Sea Foam"	[illegible]
"Hecker's"	[illegible]

The Royal Baking Powder was found, besides being of absolute purity, to evolve the highest amount of leavening gas of any of the powders tested, and hence it was placed at the head of the list and recommended for Government use.

But the crucial test of the kitchen is, after all, the most satisfactory to the housekeeper. A baking powder that never fails to make light, sweet, wholesome, and palatable bread, biscuit, cake, etc., upon all occasions, is the one that will be placed at the head of the list by the practical housewife, and received into her kitchen for continuous use. This test the Royal Baking Powder has stood for over twenty years without a single failure, and hence its reputation as the best baking powder made has spread from house to house, until its use has become as universal as its merits are unrivaled.
